

Estimated Time Per Response: 1 hour.
Frequency of Response: On occasion reporting requirements; Third party disclosure.

Total Annual Burden: 500 hours.

Cost to Respondents: \$1,495,000.

Needs and Uses: FCC Form 304 will be used by existing MDS operators to modify their stations or to add a signal booster station. It will also be used by some winning bidders in the competitive bidding process to propose facilities to provide wireless cable service over any usable MDS channels within their Basic Trading Area (BTA). The Commission has revised the FCC Form 304 to further streamline the application process and to accommodate electronic filing. This collection of information also includes the burden for the technical rules involving the interference or engineering analysis and service requirements under Sections 21.902, 21.913 and 21.938. These analyses will not be submitted with the application but will be retained by the operator and must be made available to the Commission upon request. The data are used by FCC staff to ensure that the applicant is legally, technically and otherwise qualified to become a Commission licensee. MDS/ITFS applicants/licensees will need this information to perform the necessary analyses of the potential for harmful interference to their facility.
